

## MAKES HARD WORK HARDER

A bad back makes a day's work twice as hard. Backache usually comes from weak kidneys, and if headaches, dizziness or urinary disorders are added, don't wait—get help before the kidney disease takes a grip—before dropsy, gravel or Bright's disease sets in. Doan's Kidney Pills have brought new life and new strength to thousands of working men and women. Used and recommended the world over.

### AN ILLINOIS CASE

"Every Picture Tells a Story." 1219 Sixth Ave., St. Louis, Mo. "My business required much horseback riding and the constant jolting of the horse's back made my kidneys feel like they were being pounded. I couldn't turn in bed without pain. I lost sleep. Three doctors treated me, but I got worse. Finally, I took Doan's Kidney Pills and five boxes cured me. I have since enjoyed good health."

"Yes, but you are short too con-founded long."

All to the Good.  
Over a cigarette and an iced drink at the Knickerbocker club in New York a certain clubman said to a friend the other day:  
"Well, where did you spend the summer?"  
"Bad Nauheim," was the reply.  
"And you?"  
"Naughty Newport," he answered.

Sadder Still.  
Discussing a recent political scandal, in which an official was accused of dishonesty, Richard Harding Davis, lunching with a number of theatrical stars at a fashionable roof garden in New York, said, with a sigh:  
"He is a man I would have thought incapable of baseness. It is sad to think that every man has his price."  
"Yes," said a comedian, "but a sadder fact still is that half the time he can't get it."

Absurd Congresses.  
Andrew Carnegie, in his advocacy of universal peace, has no faith in half measures.  
"These congresses," he once said in New York—"these congresses that advocate, not universal peace, but smaller bullets, gentler bombardments and less destructive bombs annoy me."  
"When we succeed, thanks to such congresses, in eliminating savagery from war, then it will be quite in order for us to proceed to eliminate the darkness from night."

Carbines for Cavalry.  
A proposition to convert the new Springfield rifle into a carbine for the use of the mounted service is being considered by the ordnance officers of the army. The plan is to shorten the barrel of the rifle four inches, and by so doing to reduce its weight by two pounds, thus making it much easier to handle by the mounted troops. The sights also are to be adjusted to meet the shortening of the barrel.  
The decrease in the muzzle velocity, it is claimed, will not be so great as to interfere with its effectiveness up to a range of 1,500 yards. The ordnance department had been asked to make a report on the proposition, and the cavalry board will take it up and include it in its report on the reorganization of the cavalry and on the new equipment.

## POULTRY FACTS

### FEED-HOPPER FOR CHICKENS

Receptacles Keep Food Clean and Yet Readily Accessible to the Fowls at All Times.

(By W. R. CONOVER, New Jersey.)  
To keep the food clean and yet have it readily accessible to the fowls without constantly taxing oneself to maintain these conditions is often difficult.

The receptacles themselves must be kept clean. Vessels used for feeding wet mash should be of metal or porcelain, so that a frequent scalding may render them sanitary. Even the

Hopper No. 1.

wooden troughs for dry feeding should have an occasional scalding and sun-drying.

Herewith are given some ideas for hoppers which are adaptable for small or large flocks as dry feed receptacles or for wet feed if the trough part is of metal. Any handy man can make them of wood. If of metal, the help of a tinsmith may be needed.

Hopper No. 1 is a useful style in a poultry house having an alleyway with a partition between it and the poultry compartments. It is arranged so that the feeding trough for the fowls is replenished from the chute-like trough opening into it from the alley-side of the partition. The feeding portion is six inches wide and three inches deep, with a cover that

Hopper No. 2.

may be raised by means of a cord running through the partition. The chute is nine inches high, and six inches wide at the top, with a hinged cover. The space through which the feed passes from the chute to the trough is three inches high.

When the feed is poured into the chute it fills the trough gradually, but without enough pressure to overflow it. As the birds eat the feed in the chute gradually settles into the trough. The bottom of the trough is two inches above the floor. The

Hopper No. 3.

trough portion rests upon cleats and is removable.

Hopper No. 2 is convenient for the small henhouse. It is a simple box with slanting strips four inches apart fastened to a frame which rests over it. It is supported on brackets. It is 2 1/2 inches high and 12 inches in width.

Hopper No. 3 has a cover which lifts and may be hooked back during feeding time. The trough is 24 inches long, 3 inches high and 8 inches wide—five inches of this width being exposed by the lifted cover. This hopper may be made of galvanized metal and used for feeding wet mash.

## POULTRY NOTES

The biggest hen is not the business hen.

Charring corn is one way of providing charcoal for fowls.

Don't expect to win every prize that you compete for this fall.

Some breeds are easier plucked than others. This makes a difference.

The hen needs a balanced ration, the same as the cow or the man.

Broken charcoal is a fine conditioner for birds of all ages at all times of year.

It is the abuse and not the use of corn that condemns it as a poultry food.

It is very poor economy to introduce to save the expense of buying new roosters.

Air sinked lime sprinkled on the floor and on the dropping boards will help to keep the place healthy and the air pure.

## WOMAN A GREAT SUFFERER

Tells How She Was Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Grayville, Ill.—"I was a great sufferer of female complaints for a year and I got nothing that helped me until I began taking Lydia E. Pinkham's Vegetable Compound. I was irregular and had cramps so bad that I had to go to bed. Now I have better health than I have had for years and I cannot speak too highly of your medicine."—Mrs. JESSIE SCHAEER, 413 Main St., Grayville, Ill.

### Case of Mrs. Tully.

Chicago, Ill.—"I take pleasure in writing to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered with such awful periodic pains, and had a displacement, and received no benefit from the doctors. I was advised to take Lydia E. Pinkham's Vegetable Compound, and am now as well as ever."—Mrs. WILLIAM TULLY, 2562 Ogden Avenue, Chicago, Ill.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Worms Know Her Song.

Mrs. B. A. Hitchcock of Canaan, an officer of the Litchfield County Equal Franchise League, has made the following statement in a letter to a local newspaper:

"I tamed half a dozen angle dogs or worms, and got them so that they would come up out of the earth and eat out of my hand. I fed them pumpkins and bran mash, but they thrive best on sauerkraut. It took me some time to tame them so that they knew my knock on the earth above them from the tap of an old hen's bill. I rap softly three times and whistle 'Oh, Promise Me,' and up come the angleworms. One day I discovered that the biggest, fattest angleworm was cross-eyed."—Winsted (Conn.) Dispatch to the New York World.

## RASH ITCHED AND BURNED

400 South Hermitage Ave., Chicago, Ill.—"I was attacked with a breaking out on the inside of my arms. It was a small rash or pimples and it itched and burned, especially at night, so that before I knew it I had made myself sore. I had to wear the finest kind of cotton underwear, no woolen at all, because the least thing irritated it and made it much worse. The rash itched and smarted until at times I got no sleep at all."

"I had it trouble and took treatments for about one year, but they only gave me relief while taking them. Then I began using Cuticura Soap and Ointment and I got relief right away. In three months I was a well man again." (Signed) H. W. Foley, Nov. 5, 1912.

### Unanswerable.

Simon Ford, New York's well-known humorist, said whimsically the other day, apropos of the death of J. Pierpont Morgan: "We learn from Mr. Morgan's life that wealth does not bring happiness. We know already that poverty doesn't bring it, either. What on earth then is a man to do?"—Argonaut.

## LOSING APPETITE FOR NUTS

Writer Remorse the Missing of the Ancient Fondness That Made Winter Evenings a Joy.

The old butternut, a very rich and fragrant nut of the olden time, has almost disappeared. Very few people of the present generation have ever tasted a butternut. The black walnut is becoming fewer, and in a generation, hence it will hardly be known. And yet it is a precious nut, full of goodness and rare taste. Those old pans of cracked walnuts, in the long winter evenings, made up a family joy that has never been surpassed. The hickory nuts, especially the good old shellbarks, figured prominently in those nutty days, and the chestnuts, too, including the hazel nuts and beech nuts; but they are all growing scarcer, and have sadly strayed away from the human heart.

The pecan is becoming the great American nut. There are thousands of trees cultivated in the south, and the nut has become commercially important. Trees are reported bearing \$200 to \$500 worth of nuts per acre. It is a rich nut, but quite too hard for the novice to pick out the kernels. There are, however, machines that do the work perfectly. But, after all, for rich, well-flavored and grand mouthfuls of nuts, give us the English walnut—Ohio State Journal.

## KEEP THEIR HEADS STEADY

Australian Statesman Asserts Women Prevent Conditions of Political Turbulence.

The prime minister of Australia, where the women have suffrage on equal terms with men, was interviewed while on a visit to London on the results of woman suffrage in his country. He is quoted as saying:

"Women's suffrage steadies political feeling. In democratic countries turbulence is always a danger. Well, in a time of political excitement men will let themselves loose. Women won't. They don't want hysterics. They don't want earthquakes. They are the domestic economists, and they have to calculate the needs of their households pretty closely every week. This is why economic questions are more carefully studied now and why you get steadier, more sober, more wholesome opinion on all questions connected with the home."

Possibly no stronger conclusion can be deduced from the eleven years' experience of woman suffrage in Australia than the fact that its national parliament, by unanimous vote, adopted a resolution declaring its entire success and calling upon the parliament of Great Britain to enfranchise women.—New York Evening Post.

## JUDGE CURED, HEART TROUBLE.

I took about 6 boxes of Dodds Kidney Pills for Heart Trouble from which I had suffered for 5 years. I had dizzy spells, my eyes puffed, my breath was short and I had chills and backache. I took the pills about a year ago and have had no return of the palpitations. Am now 63 years old, able to do lots of manual labor, am well and hearty and weigh about 200 pounds. I feel very grateful that I found Dodds Kidney Pills and you may publish this letter if you wish. I am serving my third term as Probate Judge of Gray Co. Yours truly,

Boys Prefer the Farm.  
The farm boy has a tremendous advantage in the world. Early he is trained to self-reliance, to performance of duties, to regular labor. He has a sound body. He is eminently fitted to do the greatest things done in the world. He recognizes that the farm is the best place in the world in which to live. Ten chances to one he would prefer to stay on his father's farm. If the father can learn to make the farm pay well, if he can make it progressive, with hope of fine achievement at the end of the struggle, then most boys will stay. It is when the farm is stagnant, unprogressive, dead, almost hopeless, that the young man sets his face resolutely away from the farm.—Breeder's Gazette.

Turn About is Fair Play.  
"A famous tenor," said Giulio Gatti-Casazza, "was invited one night to dinner by a Chicago trust magnate. The dinner was superb, but at its end the trust magnate asked the tenor to sing. This, of course, was as bad as inviting a doctor to dinner and then asking for a free prescription. So the tenor politely declined. The trust magnate, however, insisted. After five or ten minutes of this, the tenor said, with a laugh: 'Oh, well, every one to his trade. Let me see you pick a pocket. Then I'll sing.'"
